EX GROUP

Testimonial

EX Group Pte. Ltd engaged FT Synergist Pte Ltd to complete a business scaling consulting project which we were gratefully supported by Enterprise Singapore under business strategy development.

Frederick was able to distil complicated business jargons and terminologies into simple to understand explanations which often came with actual case studies from other companies that he had provided consulting. What we appreciated the most was his extensive experiences in sharing best practices and potential pitfalls in mapping long term strategic goal and the roadmap that detailed the milestones.

We were glad that at the end of the project, we were able to develop clarity in our vision, mission and long-term strategic direction that's coherent with a 3 years roadmap that we were involved in mapping together with the consultant. Our communication with our team of 100 staff have significantly improved after we start using the reviewed set of mission, vision and values together with a 36 months roadmap.

We are also now clearer about our company's core capabilities to set Key Performance Indicators that creates more win probability for us. Specifically, we are building up our knowledge and resources to build a new proprietary product for the company that harnesses on technology to help us capture more market share. We believe this new tech product can enable us to grow beyond Singapore and offering a wider range of ESG centric haircare products and services targeting customers with higher disposable income. Concurrently, we are working on a few areas for improvement in strategic communication with the staff that were highlighted by Frederick and his team.

Since the completion of the project, we have been enjoying success in using the reviewed mission, vison and values to better communicate with staff and ensure higher staff engagement. We are now working on developing and implementing a unified HR toolkit that includes issuance of induction kits and running of quarterly meetings.

May we also take this opportunity to accord our sincere appreciation to Enterprise Singapore for supporting us on this invaluable journey of scaling up EX Group! Thank you!

Our last client on Business Strategy Development scaled up through our 3-pronged approach to develop new intellectual properties through artificial intelligence, sustainability and education.

TNT SURVEILLANCE

15th Oct 2021

TO WHOM IT MAY CONCERN,

Testimonial Letter

TNT Surveillance (TNTS) officially embarked on the Business Excellence (BE) journey in June 2019 at the advice of Frederick, our appointed management consultant from FT Synergist to adopt the BE framework while we deliberated over the company's next 5-year roadmap.

Frederick is a management consultant with a very authentic and positive personality that enabled him to very quickly build rapport and trust with my senior leadership team. Through the course of guiding our team though the BE journey, Frederick was able to distil the BE framework into practical examples that our team was able to relate and contextualise to our work environment.

Frederick far exceeded our expectations from a management consultant in providing his consulting expertise and was quick and decisive in helping us to design and activate evolving business continuity plans so that we could focus on completing the BE journey and be ready for assessment by Enterprise Singapore's panel of assessors at the peak of the covid19 pandemic.

TNT Surveillance is proud to be part of the alumni of Singapore brands who have attained Business Excellence – Singapore Quality Class awarded by Enterprise Singapore. We thank Frederick for his wonderful contribution towards our team. We wish Mr Frederick all the best for all future endeavors.

Yours Sincerely,

Joshua Tan
Director

Testimonial

We got to know Frederick from FT Synergist through a friend's recommendation and decided to engage his consulting services to help us spearhead project scaling up based on his abilities to relate to our business and his demonstration of actual experiences of developing strategy roadmaps for businesses and implementing technology projects.

Frederick helped us from the period July 2020 to June 2021 this year to review and streamlined our current workflow and processes to reduce or remove redundant processes, recommend the use of specific technology and features that best serves our needs and, develop a detailed roadmap of actions for further improvements as we best position ourselves for the scaling up project.

Through the technology leap, we have acquired new capabilities to provide a seamless customer experience with timely and dynamic information (like pricing and stock information) to our customers overseas; and ultimately enable us to acquire new customers and overseas resellers.

James Lu
Director
PPE Distribution (S) Pte Ltd

ADAM KHOO EDUCATION

As the CEO of Adam Khoo Education Vietnam (AKE) that offers franchised and licenced lessons and workshops ranging from motivational camps, arithmetic classes to fingerprint profiling services to children and adults, I have more than 70 staff in 7 business units reporting to me at our headquarters located at district one, Ho Chi Minh.

We consulted Frederick to assist us in reviewing and streamlining business systems and processes for the plethora of programmes offered under AKE. Frederick assisted us to conduct an internal brand audit that really opened my perspective of how the various business units perceived AKE, the master brand how the respective businesses could be synergized with one another.

What I liked about Frederick's approach was his ability to make abstract theories to easy-to-understand practical points. I was also impressed with his ability to connect with my Vietnamese teams within a short period of time despite our cultural and language difference. This is a consultant that will get the job done for you and someone that I'll recommend others to in the future. "

Nguyen Cong Binh
CEO, Adam Khoo Education (Vietnam) Ltd

Our last client on franchise and licensing consultation scaled up from single unit to multimillion dollar brand with franchised units in Singapore, Jakarta, Surabaya and Ho Chi Minh.

BIG FISH SMALL FISH
Beyond Fish & Chips

25th July 2020

Testimonial – FT Synergist

We worked with Mr Frederick Tan of FT Synergist in 2019 on a 6 months Strategic Brand & Marketing Development project.

Frederick provided us with an end-to-end service and guided us from the beginning to the completion of project. He helped us with our grant applications, co-ordinating, working together with us and our appointed lawyers. These are over and beyond the services in our contractual agreement with him.

We were particularly impressed with the Survey part of our project where he personally conducted on-site surveys with our customers. The surveys gave us an insight to our strengths, weaknesses, and opportunities. It enabled us to better strategize for our business in the short and medium term.

Frederick continues to keep in touch and updates us on developments pertaining to our industry. He would also support our restaurants and give us his feedback.

We would like to thank him for his commitment to the project and for being a friend to Big Fish Small Fish.
